The exhibition Respect for Anatolian Weaving - Woven Sculptures" was intended to be an expression of respect for the "Anatolian Weavers" who left us a cultural legacy. Each piece is a designed as a symbolic award statue figure that is to be devoted to them and the whole event is both an artistic partnership and a permanent and statuesque textile show. With this event, the participants intended to be the voice and permanent expression of traditional weaving culture in its form of contemporary art. Calling 42 textile designers for an exhibition themed "Respect for Anatolian Weavers - Woven Sculptures"; I shared my proposal of aiming to narrate unity of form and light using weaving techniques and put together an art event to create a permanent, joint statue of textile.
