Dear Everybody!
Good News again to announce!

Darling Publications is initiating a most exciting event again in Cologne. After the first Expo Cologne in 2022 we managed to get for two following days (difficult!) the very same spectacular location, the two-storey city gate of medieval Cologne in May, where we can welcome almost the double amount of violin makers as last year this time! A good opportunity to 1. meet some of the very talented makers of your own generation, 2. play some of their work and 3. have a drink together (in this proposed order or eventually the backward order is an option too...). Five violin maker - “primeurs” can be welcomed: Maarten De Keukeleire from Belgium, Wolfgang Kury & Caroline Krömmelbein from Germany, Jan Lipinski from Poland and from quite far: Ismail Kaya from Turkey, but last but not least, from even more far: Jacob Ho from Taiwan!

Same for this year invited bow makers of course, where we can welcome 4 “primeurs” of 13 exhibiting bow makers: Sergio Chanquia, Clémence de Lartigue and Thomas Giguet from France and Johanna Gabriel from Germany!

Although this Cologne event by Darling Publications promises to be great fun already as the announcements by word of mouth received already hyper-enthusiastic joyful pre-reactions and certainly encourage us to make the best possible event for the exhibitors and the visitors! And hopefully for the enjoyable members of the Cologne Musical Community some more events of this kind will follow! Almost a tradition already, an informal gathering without any need to impress anyone or to show off what you can or have... The good company already exhibiting is welcoming other (good) visiting company to have a nice time. Needless to mention, but of course nobody will stay thirsty and hungry as always at our beloved shows!

Reserve some time and do come by for a visit. Don't miss the opportunity to tell your grandchildren you were at the (one day surely) historical 2023 second Cologne Cuvée Darling event with talented makers and their work.

Hope to see you 20th/ 21st May 2023 and welcome you for a drink (or two..) in Cologne!

Andy Lim, DARLING PUBLICATIONS COLOGNE.

So, where can so many goodies and excitement be seen and experienced?
